Street 4, Abids,
Hyderabad,

Profile

I have more than 8 years of experience in WordPress Development, Website Designing, User Experience, bug tracking and troubleshooting and Front-end designing.

Work Experience

AITNews (Lead Developer) – 2016

AitNews is the biggest technology news website based out of Dubai. With millions of readers around the middle east and the neighbouring countries, this award-winning online news publication has been one of the biggest sources of Information Technology news in the whole Middle east.

I worked on the complete redesigning & performance improvement of the website. I sat with the founder and worked with him on his vision to create the next generation tech news source of Middle east.

Magazine3.com (WordPress Developer & Designer) – 2016

Magazine3 is one of the top WordPress magazine theme providers in the world. Started back in 2010, I have worked with more than 15000 customers worldwide. I have worked with many big companies and clients as well. At Magazine3, I have deployed more than 44 premium WordPress themes that have been used by thousands of companies and news websites.

InboundNow.com (Front-end Designer and UI/UX Developer) – 2016

I worked with InboundNow founder to redesign and improve the user interference of the plugin.

TheSkin.io (WordPress Developer & Designer) 2016

Skin theme is one of the best open source WordPress theme that I released about 6 months ago. It was very well received in the WordPress community, a lot of people write up blog posts to thank me for this contribution to the WP community.

Accelerated Mobile Pages (WordPress Plugin developer) – 2016

I co-created a plugin called Accelerated Mobile Pages which enables AMP support to your website instantly.

Wadhwa.com (WordPress Developer) 2014 - 2015

I have worked with Vivek Wadhwa to create his own personal website. Vivek Wadhwa is an American technology entrepreneur, academic and a very well known personality in the Western Startup World.

BusinessOfCinema.com (WordPress Developer) 2012 - 2013

BOC is one of the leading entertainment news provider in India. I worked on the complete redesign and development of their project.

H4-Entertainment (WordPress Developer) 2014 - 2015

h4-entertainment.com is a sports portal, I worked on the complete redesign of their website.

MeriSite.in (Frontend Design & WordPress Development) 2016

MeriSite is one of my hobby projects that is close to my heart.

Education

Private Institution, Hyderabad – Degree, 2007

Skills

WordPress Development, Website Designing, User Experience, bug tracking and troubleshooting and Frontend designing.

References

It is hard to write down all the experiences on the resume. Let's do a Skype call (matt.kaludi) and then you will be able to know more about my skill.
